

ROKO® PROFESSIONAL SANITER

DESCRIPTION

SANITER liquid intended for everyday cleaning of bathrooms and shower cabins. Effectively removes old dirt of fatty and organic origin. Suitable for acid-resistant surfaces and fittings. Effectively removes limescale, urine, rust and soap deposits. Leaves a pleasant and long-lasting fragrance.

COMPOSITION

non-ionic surfactants, perfume

TECHNICAL REQUIREMENTS

AppearanceTransparent or slightly opalescent liquid

pH.....max. 4.0

Density at 20°C, g/cm³.....1.005 ± 0.025

APPLICATION

How to use: Spray the surface to be cleaned, then wipe it with a sponge or brush. After using the liquid, rinse the surface with water.

Recommendations: Preparation for direct use. Intended for everyday washing of bathrooms and sanitary facilities. We recommend it for bathroom fittings, shower cubicles, enamel, acrylic, ceramic and porcelain bathtubs. The preparation is suitable for cleaning acid-resistant surfaces.

For professional use only!
